Dear Sirs.

Walmer.

We are favoured with yours of the 11th inst. We have before us full reports of the Surveyors which have received the careful attention of the Office Surveyor and we are bound to believe that the property has been properly inspected before these reports could be made. It is very usual for Owners of property to have a larger opinion of its value than those who are asked to guarantee or lend money upon it. We could not possibly guarantee a mortgage of £4,000 upon this security with these reports before us, the utmost we could stretch it to would be £3,300.

Yours faithfully
For the Corporation.
