Mem Memorandum to
Sawwick

Dear Sir
re Trust

We called at your office this afternoon, with regard to your letter this morning, but not seeing either of you left word that we wish you to proceed in this matter without delay, and take any steps you may deem advisable, to effect the paying home of the Mortgage, - We think now is a

Very good opportunity to press the matter, as he is now in full swing with several large contracts, and rather than being things to a climax might get some one to take it over. Should advise in the first instance your writing him telling ^{him} that the notice having expired steps must be taken to comply with same. otherwise you have instructions to put in force the covenants reserved in the Mortgage. In the matter of interest now due we should be willing to outset - this if the principal can be repaid -

We leave the matter entirely in your hands to act or best you think

Yours faithfully
L. Hinds & Son.
