Dear Sir,

re Cholloppe

Our Client has sent us your letter of the 4th inst. giving him notice that all the machinery plant & fixtures upon the workshops & premises in Liverpool R^d are included in the mortgage to your Client. We wired you ~~to send~~ this morning to send us a copy of such mortgage & have received your telegram in reply.

If the mortgages are all in the same form you need only send us a copy of one of them but if not - perhaps you will send us a copy of one & all of the parcels only as regards the others. You may of course look to us for your charges in the matter.

We are not at present in a position to advise our Client as to your claim but suggest that without prejudice you might allow the sale to proceed, the proceeds of any lots claimed by your Client being paid to an ac^t in our joint names pending the settlement of this question.

If you do not see your way to acquiesce in this we will look into the matter & advise our Client to withdraw from the sale any lots which ~~are~~ ^{we} considered to be comprised in your security.

Yours Truly
